### *Your holiday farm at the Edersee and national park „Kellerwald-Edersee“!*

For almost 50 years visitors have come to spend their holidays with us. On our farm you experience the country side at its best.

Did you ever see how to harvest? Or have your kids ever seen how to milk cows? Be reassured that your kids will have a great time; they can actively help, or play in an safe environment. They are welcome to visit the stables, join us for tractor rides or play on the farm, at the lake or in the wood.

Our little village and the region represent one of Germany's top Country side destinations. The central location of our farm enables you to explore the Waldecker Land with all its attractions. The Edersee is one of the largest artificial lakes in Europe. Thanks to the excellence of its water, the Edersee is blessed with an abundance of fish- to the delight of anglers and divers alike. The fantastic panorama of green wooded slopes an lush meadow valleys invites lengthy rambles through the invigorating countryside and also through the Kellerwald National Park, where you can find a "sea of old beech-trees".
